Project Development Assistant Manager

Lead sustainable energy projects. Apply if skilled in technical, financial, and communication.

Your new company

A multinational company that offers integrated and sustainable energy solutions, such as district cooling, onsite solar, and renewables, in Singapore, Malaysia, and the Philippines.

They are looking for a Project Development Assistant Manager to join and be part of a team that is accelerating the transition towards a carbon-neutral world.

Your new role

Oversee the entire project development process, from feasibility studies, design, costing, financial modeling, to contract drafting and signing

Liaise with various internal and external stakeholders, such as engineering teams, consultants, suppliers, customers, authorities, utilities, and government agencies, to ensure smooth project implementation and coordination

Evaluate and negotiate with contractors, vendors, and suppliers to meet the project specifications and requirements in terms of technical, financial, health, safety, and quality aspects

Manage internal resources and ensure timely scope delivery while fostering a healthy culture.

What you'll need to succeed

Strong technical knowledge and experience in **energy system design, simulation, and improvement**, especially **Cogen / Gas Turbine / Heat waste recovery** background

Excellent **communication and presentation skills** and the ability to work with different levels of stakeholders

Good financial and analytical skills and the ability to use financial tools, **CAPEX, OPEX, costing, and budgeting**

Passion for renewable energy and drive to achieve project performance guarantees and KPIs

What you'll get in return

A competitive compensation package that reflects your skills and experience

A chance to work with a multinational company that is a leader in renewable energy

A range of benefits that support your well-being and career development
